

S.G. CIRCULAR NO. 14/1934

Costing Of Surveyor's Work

In preparing the dissection of a Surveyor's costs on the back of the diary form the following method of computing the cost of a day's work is to be adopted:-

$$(1) \text{ Cost of days on leave or } = \frac{\text{Salary} + \text{Allowances}}{\text{Possible effective days}}$$

on duty without coolies)

$$(2) \text{ Cost of working day} = \frac{\text{Total expenses minus (1) as above}}{\text{Actual working days}}$$

$$\text{Possible effective days} = \text{Days in month minus Sundays, holidays and days on which rain prevented all work.}$$

A.R. WHITE
For Surveyor General,
F.M.S. & S.S.

Dated: 27th. November, 1934.
